

Hovione Webinar

High performance solutions for DPI delivery: new formulation and device platforms

Going LIVE on Wednesday, October 4th, 2023

11:00 am EDT | 4:00 pm GMT | 5:00 pm CEST | 8:00 am PDT

Susana Saldanha is the manager of the Formulation and Device Development team, in the Inhalation and Advanced Drug Delivery Group at Hovione R&D. Susana has over 10 years of experience in formulation development and has been involved in the development of oral, transdermal, and injectable dosage forms, spanning from early drug product development through product registration to launching.

Susana joined Hovione in 2018 where she focused not only on drug delivery to the lungs but also nasal and ophthalmic drug delivery. She has worked on drug product development projects from early to later stages, ranging from generics to innovative products. Susana holds a PharmD from the Faculty of Pharmacy, University of Coimbra.

Sofia Silva is a senior manager in the Analytical Development group at Hovione R&D. Sofia has over 15 years of experience in analytical chemistry development specializing in inhalation drug products, from early to late phase development and drug product launching.

Sofia joined Hovione in 2009 and holds a Master's degree in Pharmaceutical Sciences and Pharmaceutical Engineering.
