

Hovione 

In it for life

Everything
for Inhalation

Fully integrated independent service provider in inhalation

Hovione offers customised high performance APIs, particle engineering and formulation along with a full range of simple, patented, cost-effective DPIs.

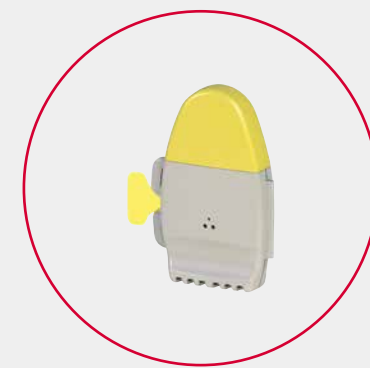

DISPOSABLE DPI

LARGE DOSE DPI

CAPSULE DPI

BLISTER DPI

Portfolio of Off Patent APIs

Our products are particle engineered to customised specifications using Hovione's in-house micronisation capabilities.

- Fluticasone
- Salmeterol
- Umeclidinium
- Glycopyrrolate
- Mometasone
- Vilanterol

Dry Powder Formulation Services

- Formulation development services
- Generic API with bespoke powder properties
- Small-scale to commercial manufacturing
- Precision capsule filling
- Wet polishing
- Jet milling
- Spray drying
- Scalability

Particle Engineering Technologies

Unprecedented particle size control:

- Median particle size control down to 0.1 μm
- Spans down to 0.6
- At any scale

Advanced engineered particles for low and high dosages:

- Microencapsulation
- Nanocoating
